

CONTRACT DOCUMENTS AND NATIVE FORMAT ELECTRONIC INFORMATION

Special Provision No. 199S65

December 2016

Contract Documents

During the tendering period, the Contract Documents are available in Portable Document Format (PDF) from the Registry, Appraisal, and Qualification System (RAQS/MERX).

Native Format Electronic Information

Native format electronic information such as AutoCAD and InRoads files, if available, shall be provided by the Owner after Contract award.

Upon request, native format electronic information may be provided by the Owner during the tendering period, if available. Bidders requesting the information shall submit a request electronically through the RAQS/MERX website at least 7 Business Days prior to the tender closing date.

Native format electronic information is provided as a courtesy and shall only be used for the administration and construction of this Contract. The Owner does not warrant the accuracy of the native format electronic information or its compatibility with any software applications.

Official Contract Drawings

The original printed copies on file at the Owner's Regional Operations Office shall be the official Contract Drawings.
